RE: BOARD DECISION – VARIANCE – KONE A

At the January 10, 2008 Board meeting the Board rescinded Kone A's blanket variance for ropes under 3/8" in diameter which was approved at the August 9, 2007 meeting. This decision was based on clarification by our General Counsel that an error had been made.

The Board apologizes for any inconvenience this may have caused. In the future a variance request and payment must be submitted for **each** conveyance to the Board for approval.
